Former Exxon Service Station 7-0276
1400 Farmers Lane
Santa Rosa, California 95405-7502

SUBJECT Notification of Drilling Activities
Former Exxon Service Station 7-0276
1400 Farmers Lane, Santa Rosa, California

To Whom It May Concern:

At the request of Exxon Mobil Corporation (Exxon Mobil), Environmental Resolutions, Incorporated (ERI) is notifying you of upcoming field work at the subject site. Field work will include drilling nine off-site borings (B26 through B34), and collecting soil and groundwater samples from the borings. Boring locations are shown on the attached Generalized Site Plan. Work is being performed at the direction of the California Regional Water Quality Control Board, North Coast Region. Field work is scheduled to occur May 2 and 3, 2006. A project orientation meeting is scheduled for April 11, 2006, to meet at the site and discuss the work scope and safety issues prior to beginning field work.

Soil cuttings and rinsate water from drilling activities will be placed in 55-gallon drums and stored at the site pending characterization and disposal. Upon receipt of laboratory analytical results of soil samples from the drums, ERI will coordinate with Exxon Mobil for disposal of the soil and water. ERI appreciates your cooperation to ensure that field work occurs safely and efficiently, and will minimize disruptions to station operations while on site.

Please call Ms. Paula Sime, ERI's project manager for this site, at (707) 766-2000 with any questions regarding the work.

Sincerely,
Environmental Resolutions, Inc.

Robert A. Westrup
Senior Staff Geologist

Paula Sime
Project Manager
